
TRUE EMULSION DEGREASER NON FLAMMABLE

Description: Non Flammable Degreaser

Characteristics: **E D FLUID** is a homogeneous emulsifiable non-flash, non-burning degreaser. **E D FLUID** is used for degreasing painted and unpainted surfaces of mechanical and automotive components, soiled with dirty oil and grease.

E D FLUID has outstanding features, such as

- Fast cleaning with a high solvency on greasy deposits
- Safe on metals as well as economical to use.
- Free rinsing and stable emulsions

Directions: Apply **E D FLUID** neatly with brush or spray and allow soaking into the grime or agitating. Then wash off with water.

The length of soaking time will depend on the depth to be penetrated.

Specifications:

Appearance:	Clear red liquid
Ingredients	Blend of organic solvents, emulsifiers and water
Flash Point	Nil
Density @20°C	0.920
Odour	Mild Pine oil
pH	11.5 Max.

Cautions: **ED FLUID** is not to be used for cleaning electrical equipment or aircraft components. Please avoid prolonged contact with skin and eyes.
ED FLUID is not to be swallowed.
