

TRUE LUBRICANTS

TRUE MOLY HD 2 GREASE

Description: TRUE MOLY HD 2 GREASE is high quality multi purpose lithium base grease blended from solvent refined oils and incorporate multi functional extreme pressure additives as well as corrosion and oxidation inhibitors. The product is then fortified with 5% Moly and tackifier. It is suitable for operating temperatures between -30°C and 160°C .

Specification: TRUE MOLY HD HD 2 GREASE conforms to SABS specification 1851.

Application: TRUE MOLY HD 2 GREASE is designed for use in highly loaded plain and roller bearings as well as for shock loading conditions in steel mills and pins and bushes. It is suitable for use in a full range of bearing speeds. The smooth consistency makes these greases ideal for use in centralized lubrication systems and they can be used on ferrous and non-ferrous metals.

Characteristics:

Thickening Agent	Lithium
NLGI Classification	2
Colour	Grey black
Work penetration at 25°C	265-295
Drop point $^{\circ}\text{C}$	>180
4 ball weld load test	800kgf
Solids Content	$>5\%$
Timken OK load Kg	33
Oil Viscosity at 40°C	980
Recommended Temp Range	-30° to 160°C
Water washout	$\leq 5\%$
