

## Heavy Duty Degreaser

### Description

True Heavy Duty Degreaser is an emulsifiable, hydrocarbon based solvent cleaner. It is a ready to use product that will quickly penetrate and emulsify the heaviest greases and oils without the need for heat. True Heavy duty degreaser is safe to use on most metals and is easy to rinse away after cleaning

### Features & uses

- Forklift Trucks.
- Engine (\*Flammable)
- Plant & equipment
- Motor Parts
- Floors
- Machinery

### Specifications

Properties	Method	Specs
Colour		Blue
Odour		Spirit
Flash Point °C		39
Solubility		In Solvents

These characteristics are typical to current production, variations may occur.

### Application:

Apply by brush or swabs or alternatively immerse and leave for a few minutes while the product penetrates into the oil & Greases. It dissolves oil, grease, grime, dirt and is easily rinsed away with water and preferably with pressure.
